# PART 1 – INVITATION AND SUBMISSION INSTRUCTIONS

## 1.1 Invitation to Respondents

This Request for Quotations (the “RFQ”) is an invitation by the Government of Bermuda (the “Government”) to prospective respondents to submit non-binding quotations for **Network Infrastructure and Server Support**, as further described in Section A of the RFQ Particulars (Appendix D) (the “Deliverables”).

The Government of Bermuda, Ministry of National Security, through the Bermuda Police Services (hereafter known as “BPS”), is soliciting proposals from local firms to provide comprehensive technical support for their core network and server infrastructure. This support encompasses proactive monitoring, real-time analysis, and immediate response services, ensuring the reliability, security, and efficiency of the BPS network and server infrastructure.

In addition to the aforementioned support activities, the selected firm will be expected to provide on-site support as needed. This on-site support, though infrequent, is crucial for addressing critical issues promptly and ensuring uninterrupted operations, as the BPS must maintain functionality 24/7.

The successful respondent will deliver Level-3 network and server support and monitoring, encompassing email maintenance and support, core infrastructure software support, security management, and disaster recovery measures. This includes being available for on-site support when required, ensuring timely resolution of critical issues.

Collaboration with the BPS Technology Department's technical staff and other vendors, including proprietary software vendors and internet service providers, is paramount. The primary objective is to ensure optimal functionality of the BPS IT system for end-users. Furthermore, the selected respondent will work closely with IT management to strategize for the long term, ensuring systems remain current, functional, and cost-effective in alignment with IT best practices.

Prior experience in providing support to medium to large-sized companies with operations across multiple locations is preferred. Proficiency in VMware Environment, supporting multiple hardware manufacturers, and maintaining local and wide area network systems is essential.

While the specifications outlined serve as minimum standards established by the BPS, potential respondents are encouraged to propose additional recommendations or expert opinions based on their expertise and experience. The BPS acknowledges that this overview provides a general understanding of its environment and current infrastructure and welcomes suggestions for enhancements or optimizations.

## APPENDIX C – PRICING

### 1. Instructions on How to Provide Pricing

- (a) Respondents should provide the information requested under section 3 below (“Required Pricing Information”) by reproducing and completing the table below in their quotations, or, if there is no table below, by completing the attached form and including it in their quotations.
- (b) Pricing must be provided in Bermuda funds, inclusive of all applicable duties and taxes, which should be itemized separately.
- (c) Pricing quoted by the respondent must be all-inclusive and must include all labour and material costs, all travel and carriage costs, all insurance costs, all costs of delivery, all costs of installation and set-up, including any pre-delivery inspection charges, and all other overhead, including any fees or other charges required by law.

### 2. Evaluation of Pricing

Pricing is worth 30 percent of the total score.

Pricing will be scored based on the formula below. Each respondent will receive points of the total possible points allocated to price for the particular category it has bid on, which will be calculated by the following formula.

2.1 Price (include all cost) 5 = lowest bid, 4 = next lowest, etc. until 0 = most expensive

2.2 The respondent is in a stable financial position

Following financial checks, i.e., checking a bank reference, the following scores should be awarded. 5 = all financial checks sound, 3 = minor financial concerns, 1 = major financial concerns, 0 = no evidence provided / evidence of severe financial instability.

2.3 The respondent has no outstanding Government debt

Following financial checks with Social Insurance, the Accountant General's Department's Debt Collection Section, and the Tax Commissioner, the following scores should be awarded: 5 = all financial checks sound, 3 = minor financial concerns, 1 = major financial concerns, 0 = no evidence provided / evidence of severe financial instability.

In addition to any rights to verify, clarify and supplement,

- (a) The Government will examine the responses to determine whether they are complete, whether any computational errors have been made, whether the documents have been properly signed, and whether the bids are generally in order.
- (b) Arithmetical errors will be rectified on the following basis:
  - (i) Where there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail and the total price shall be corrected. If the respondent does not accept the correction of errors, its Bid will be rejected. If there is a discrepancy between words and figures the amount in words will prevail;

- (ii) Where there is a discrepancy between the amounts in figures and in words, the amounts in words will govern; and
- (iii) Where there is a discrepancy between the individual lump sums and the total amounts derived for the sum of the individual lump sum, the individual lump sum as quoted will govern, and the total amount will be corrected.
