

LOCAL RETAIL SALES

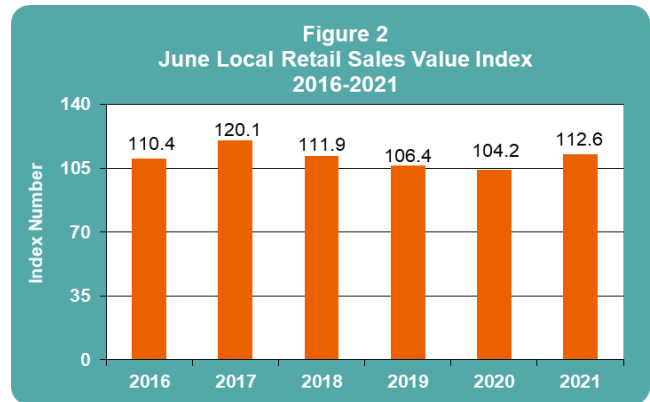

Sales Volume Increased 5.9 Per Cent

After adjusting for the retail sales rate of inflation, measured at 1.9 per cent in June, the overall volume of retail sales increased 5.9 per cent when compared to June 2020. This growth was attributed mostly to increased spending on-island by residents in 2021 and less restricted sales activity compared to June

2020 during the Coronavirus disease 2019 (COVID-19) pandemic. In value terms, retail sales rose 8.1 per cent to an estimated \$105.0 million.

Four of the seven retail sectors recorded higher sales volumes with Motor Vehicle Stores reporting the largest percentage increase.

Excluding Sundays, there were 25 shopping days, the same as in June 2020.

The Retail Sales Index (RSI) is based on a matched sample of reporting local retail stores. The sales data are collected from these stores via a monthly mail survey.

NOTE: Data on selected overseas declarations have been expanded as of December 2018 to show categories that represent a combination of goods purchased directly from overseas, online shopping, gifts, etc. In September 2019, the total selected overseas declarations and annual percentage change were added.

*See page 2 - Analysis of Selected Overseas Declarations

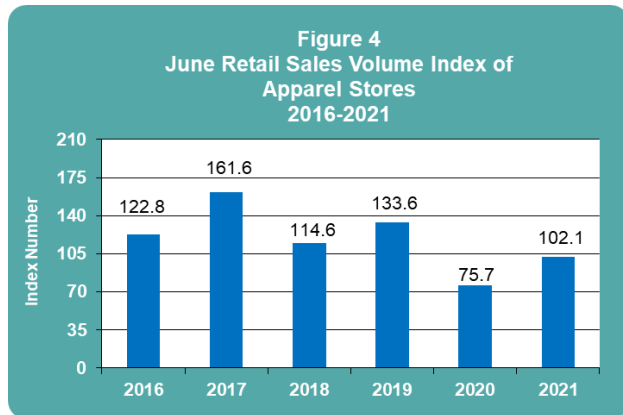

Motor Vehicle Stores

The Motor Vehicle Stores sales volume rose by 76.7 per cent. In value terms, sales increased by 75.0 per cent. This growth was due to a substantial increase in the number of cars sold which offset a decline in motorcycle sales.

Apparel Stores

Sales volume for Apparel Stores increased 34.9 per cent. In value terms, sales rose 35.0 per cent in June 2021. The rise in sales was due to fewer government restrictions on store operations resulting in increased foot traffic and more local spending on apparel.

Service Stations

The volume of sales for Service Stations increased by 15.5 per cent. The value of sales rose 25.1 per cent boosted by a greater number of vehicles in transit as well as an 8.2 per cent increase in fuel prices.

Building Material Stores

Sales at Building Material Stores rose 7.6 per cent in volume terms and 7.5 per cent in value terms. The growth in sales reflected continued demand for home improvement products and materials as well as an increase in contract sales.

Food and Liquor Stores

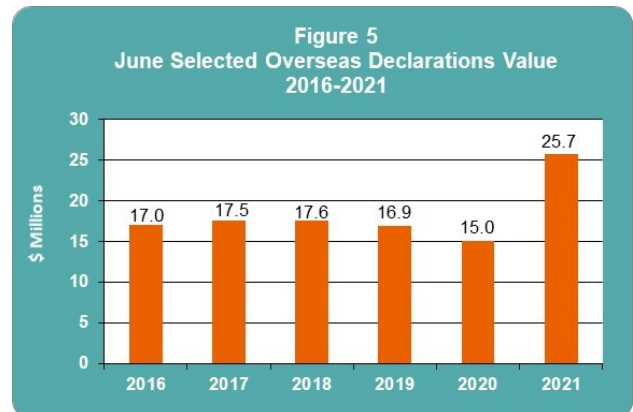

The sales volume of Food Stores decreased 1.5 per cent while the sales volume of Liquor Stores fell 3.4 per cent. In value terms, the sales for Food Stores decreased 0.6 per cent while Liquor Stores decreased by 5.8 per cent.

All Other Store Types

During June 2021, the sales volume for the All Other Stores Types decreased by 4.6 per cent. In value terms, sales for this sector increased 0.9 per cent. Gross receipts from the sale of miscellaneous goods rose 60.1 per cent due mostly to jewellery sales. Sales for pharmacies rose 2.2 per cent. The sales value of furniture, appliances and electronics dropped by 7.9 per cent. The sales value for marine and boat suppliers decreased 12.9 per cent.

Selected Overseas Declarations (Value)*

Imports via courier increased \$0.7 million to \$13.6 million. Imports by households via sea rose \$7.0 million to \$9.0 million as a result of higher imports of furniture, clothing and vessels for pleasure and sports. Declarations at the airport by returning residents rose to \$2.7 million and imports via the Bermuda Post Office rose to \$0.5 million.

⁵ The yearly series reflect annual changes.

^R Represents revised

EXPLANATORY NOTES

The RSI was first developed in 1982. It is a key economic indicator used to assess the current performance of sales activity in the local retail sector of the economy.

The RSI is a self-weighting index. This means that stores reporting a large value of sales have a greater impact on the movement of the index than stores reporting a low level of sales activity.

The RSI serves to:

- 1) measure monthly and annual movements of retail sales
- 2) provide an estimated gross turnover of sales in the local retail sector
- 3) act as a barometer of change in the level of demand for both the domestic and tourist markets

The index is structured into seven broad sectors:

- Food Stores
- Liquor Stores
- Motor Vehicle Dealers
- Service Stations
- Building Materials
- Apparel Stores
- All Other Store Types

Total retail stores across the seven sectors represent roughly 70% of all retail activity on the Island. The base period 2015 recorded a gross turnover in retail sales of \$1.1 billion.

Retail outlets that participate in the retail sales survey and trade in similar types of goods are grouped into these seven sectors. It is important to note that sector classifications are not interchangeable with commodity classifications. This is because most retail outlets sell several kinds of commodities. The sector classification reflects generally the individual commodity or the commodity group, which is the primary source of the establishment's receipts, or some mixture of commodities, which characterizes the establishment's business.

CONCEPTS AND DEFINITIONS

Base Period

This is the time period used as a reference point for measuring the shift in the value of retail sales. The base period for the Bermuda RSI is 2015.

Estimated Gross Turnover

Estimated gross turnover is the total value of retail sales generated in the retail sector. It is calculated by applying the all-items index number for the current month to the average monthly sales figure determined in the base year.

Gross Sales

Gross sales (volume and value) are sales for which no deductions have been made for the return of merchandise, allowances and discounts.

Retail Establishment

Retail trade is the sector of the economy that includes establishments that are engaged in the sale of merchandise for personal or household consumption and in the rendering of services that are incidental to the sale of the merchandise.

Selected Overseas Declarations

Overseas declarations reflect the value of goods declared, whether for personal or business use, by returning residents via the airport, imports via couriers, imports via the Bermuda Post Office and the value of non-commercial imports by households via sea.

Value Sales

The dollar value of a quantity of goods and services sold for cash or credit. Sales include the amounts received from customers for: immediate and layaway purchases; rentals; installations; maintenance; repairs and alterations.

Volume Sales

The dollar value of a quantity of goods and services sold at current retail market prices adjusted to eliminate the effect of price change.
