

## A Web Application for Boats and Moorings Registration Questions and Answers

**Question 1:** What type, brand and model are the printers?

**Answer:** There are two printers a Ricoh MP C3003ex and a Ricoh MP 407. Both are used to print the certificates and decals.

**Question 2:** Are the printers being replaced?

**Answer:** No

**Question 3:** Do you want to keep the service type categories list?

**Answer:** Yes, there may be some modifications (deletions, additions).

**Question 4:** Does the registration number run sequentially?

**Answer:** Registration numbers run sequentially for boat and user's accounts and are not re-cycled. Moorings and Pylons run sequential but are recycled if a mooring or pylon are no longer needed.

**Question 5:** When you view a boat owner, does it list all boats belong to that person?

**Answer:** Yes, list also shows moorings and pylons.

**Question 6:** Does a search show all boats registered for that a person?

**Answer:** Yes

**Question 7:** Will the new system keep existing registration numbers?

**Answer:** Yes, however some new characters will be added to certain types of registrations, see Annex J – Requirements Traceability Matrix, Item 13.1

**Question 8:** Can you send out a list, listing fields and possible values for each dropdown list? **Answer:**

**Answer:** See Addendum 2 – Screen Shots

**Question 9:** Can you specify what fields are no longer needed on certain screens?

**Answer:** Not at this time, this will be reviewed with the successful bidder during the formulation of the SOW

**Question 10:** Do you presently sent out notifications of renewals from the existing system?

**Answer:** No, this is not available in the existing system but a requirement in the new, see Annex J – Requirements Traceability Matrix, Items 5.0 - 5.1

**Question 12:** If a boat is with or without an engine, does it reflect in the type of boat dropdown list?

**Answer:** Yes

**Question 13:** Can you send as an addendum the Charter Inspection screen listing all the values?

**Answer:** Annex C – MAP Forms

**Question 14:** Do you want mobile devices used for inspections and the data uploaded to the application?

**Answer:** No

**Question 15:** Is there a need to have historical data/records on boats, moorings, pylons, etc. comprehensive?

**Answer:** Yes, all historical data must be kept indefinitely see Annex J – Requirements Traceability Matrix, Items 13.10, 13.22, 13.23, 13.27, 13.28

**Question 16:** On the total payment due screen, what are the late fee for?

**Answer:** Late fees are for new or existing moorings only that are registered after the deadline to re-register, May 31 or each year.

**Question 17:** What payment gateway does the existing application use?

**Answer:** The present payment gateway is Plug and Pay and we want to keep this payment gateway.

**Question 18:** Is the payment gateway tied to any other accounting software?

**Answer:** No

**Question 19:** When entering the boat or mooring screen does it auto-generate a list in the dropdown field of all register boats or moorings?

**Answer:** No, this only appears when searching for account name

**Question 20:** Are moorings tied to a specific location, example: moorings at a specific locations are assigned a specific number range?

**Answer:** No

**Question 21:** Would you like GIS mapping included in the new system that shows all mooring locations and the ability to upload from a mobile device any new mooring location?

**Answer:** This was reviewed as an option to include but time did not allow proper analysis for including it. This could be an option added and listed as an optional item in the vendor's response along with associated cost.

**Question 22:** Can you list fields on the moorings screen that are no longer needed?

**Answer:** Yes, see the bottom of this document for some tables and values in dropdown list

**Question 23:** The online forms, can they be completed and submitted for processing online, followed by the person coming to the office to complete the registration process?

**Answer:** No forms can be submitted online. Online forms should allow the person to fill them out online or after downloading to their computer, save the filled out form to their computer and print whenever the user is ready to bring them to the office.

**Question 24:** Will the forms be registered to the map.bm web site?

**Answer:** Yes

**Question 25:** Are relationships for tables, fields and records defined?

**Answer:** Yes

**Question 26:** If we did not attend the application demo are we disqualified from bidding?

**Answer:** Your company can still submit a proposal if you did not attend the demo

**Question 27:** Under the link <https://www.gov.bm/procurement/web-application-boats-and-moorings-registration> there are: [Annex B - Financial \(Cost\) Proposal](#) and [Annex K - Financial \(Cost\) Proposal](#). Are they the same documents and do you want it twice in the response?

**Answer:** that is an error. Please submit Annex B – Financial (Cost) Proposal. Disregard Annex K – Financial (Cost) Proposal

**Question 28:** In the technical requirements, section 13, it goes from 13.3 to 13.7 are there missing points or it is just an error?

**Answer:** This is an error, there are no missing points.

**Question 29:** Please specify the kind of data that needs to be migrated along with the size & volume of migration

**Answer:** The data is presently on a Microsoft SQL 2016 database server, the present size is 400mb.

**Question 30:** Are all moorings connected with intranet or having access of internet?

**Answer:** No, moorings do not have devices attached that provides any intranet or internet access

**Question 31:** We are assuming that the test scripts are limited to our system, please confirm

**Answer:** Yes

**Question 32:** How many sites are in total and which site is central/master site for replication?

**Answer:** There is one primary site and one redundant site (data is replicate to) at different locations.

**Question 33:** How frequently is the change in fees?

**Answer:** Every 2 years

**Question 34:** Are there any other changes that changes more frequently like Daily/Weekly?

**Answer:** No

**Question 35:** Please share how many system are there that require integration?

**Answer:** None

**Question 36:** What are the names of the payment system gateway?

**Answer:** Plug and Pay

**Question 37:** Can these certificates be printed on plain paper with unique Barcode and other option as a sign of being genuine?

**Answer:** No, the department has special paper with the decals overlaid on the paper. See Annex D – Sample Certificates, Decal Templates and Printouts

**Question 38:** How many departments you want to cover in this implementation?

**Answer:** One (1)

**Question 39:** Apart from Production, how many other environments are required? E.g. Staging/DR UAT?

**Answer:** Two other environments, a Development and DR

**Question 40:** Are you looking for High Availability of the application through Active-Passive or Active-Active clustering?

**Answer:** This not required, however replication to a secondary location is required. Vendors are free to propose either Active-Passive or Active-Active as an optional feature with cost associated

**Question 41:** Is scanning required to be part of the solution?

**Answer:** Yes

**Question 42:** If scanning is required: number of users who would be accessing the scanning software?

**Answer:** Three (3)

**Question 43:** We assuming the "Scanning Services will be your responsibility, it this assumption correct?

**Answer:** Scanning implementation and all the required software would be the responsibility of the vendor. It is envisioned the existing printers can be used to scan all documents, however if additional hardware is needed, it should be included in the proposal.

**Question 44:** Can a foreign vendor outside of Bermuda eligible to bid on this RFP?

**Answer:** Yes

**Question 45:** are you planning to use on-shelf solution or are you ok with a custom solution?

**Answer:** It is up to the vendor to provide the best solution they believe will meet the requirements. It can be either on-shelf or customized. However all data must me migrated along with history and functionality as specified in the Annex J – requirements Traceability Matrix must be met

**Question 46:** Will there be any integration with your accounting system?

**Answer:** No

**Question 47:** Which Payment gateway you currently using?

**Answer:** See answer to Question 17

**Question 48:** Are all payments in USD or BMD?

**Answer:** We accept both currency

**Question 49:** Do you want the users to submit New Account Activation form online?

**Answer:** No

**Question 50:** Can the rejection of an application be appealed further?

**Answer:** Yes, in writing to the Director of Marine and Port Services

**Question 51:** Will the inspection process be incorporated in BMA system?

**Answer:** Yes

**Question 52:** Do you have specific requirement for the auto generated receipt number?

**Answer:** Yes, existing sequence must be maintained

**Question 53:** Will certificates & decals be saved online for the registered user to retrieve?

**Answer:** No

**Question 54:** How long should the data be saved for in the system?

**Answer:** Indefinitely

**Question 55:** What are preferred options to provide notifications to the users?

**Answer:** Email

**Question 56:** Deregistration and appeals process will be managed outside the system?

**Answer:** deregistration will be managed within the solution, appeals will be managed outside the application

**Question 57:** Any mandatory requirement for hosting solution, cloud or in-house?

**Answer:** The preferred solution is on-premises, vendors can propose a cloud solution as an option along with associated cost

**Question 58:** Will the system be GDPR compliant?

**Answer:** The system should comply with OECD principles

**Question 59:** Will there be a reactivation process built in?

**Answer:** Yes, but the users will have to come to the department to have an account or boat reactivated.

**Question 60:** Vendor license number will be common for all vehicle type or will it vary vehicle type wise (like boat, vessel, pylon, etc.)?

**Answer:** See Annex J – Requirements Traceability Matrix, Item 13.1

**Question 61:** Registrations, is the same information needed for each type?

**Answer:** No, the information is needed for each type differs for registering a boat, pylon, mooring, etc. However they user/owner information must be already in the system to assign the registered item (boat, mooring, etc.) to.

**Question 62:** What if a user has more than one registered item (boat, mooring etc.) should they be able to list their registrations and can they cancel/remove a registration?

**Answer:** See Annex J – Requirements Traceability Matrix, Item 2.1 – 2.4 for what the user should see listed. No user is allowed to cancel/remove a registration online. They must come to the office to perform this task.

**Question 63:** Is it ok to store payment information

**Answer:** No credit card information related to a payment will be stored in the system. The only payment information stored is the date of payment, amount paid and type of payment (cash, credit card, check).

**Question 64:** Any other payment methods required?

**Answer:** Cash, check or credit card

**Question 65:** Do Admins need to be able to do transfers in the system?

**Answer:** Yes as well as office clerks

**Question 66:** Can users do transfers?

**Answer:** no user except for the Admin or office clerk(s) will be allowed to perform transfers

**Question 67:** Will Admins need to look up registrations?

**Answer:** Yes

**Question 68:** How will looks up be performed (by what fields / criteria)?

**Answer:** Looks ups / searches should be performed by selecting values from dropdown list. The list used for searches will be identified during the SOW development with the successful vendor

**Questions 69:** Does the system need to be able to list these things too

a) Historical data related to past and present owner(s)?

**Answer:** Yes

b) Historical registration fees paid?

**Answer:** Yes

c) Historical registration transfers, inspections and disputes?

**Answer:** Yes

**Question 70:** Do we need to import history from existing system, or it's all database already?

**Answer:** All history is already in the existing SQL 2016 database and will have to be migrated to the new system

**Question 71:** Are database changes allowed?

**Answer:** Yes by the Admin or vendor only

**Question 72:** What is the database schema?

**Answer:** Vendor will have to determine this during the discovery process. However relationships within the existing database defined and will be made available

**Question 73:** Anything in the app for Additional duties below?

**Answer:** Small boat wreck removals – Yes

**Answer:** Inspections of foreshore encroachments – Yes

**Answer:** Management of boat channels – Yes

**Answer:** Processing applications for mooring pylons and floating docks – Yes

**Answer:** resolve problems involving boats and moorings – Yes

**Answer:** Assist with dispute resolution by conducting investigations – Yes

**Question 74:** Are we replacing the entire existing web site?

**Answer:** No, this will be an additional feature added to the existing web site

**Question 75:** On water access of boat and mooring data for enforcement purposes, including the issuance of tickets by Police in the case where a boat's registration is verified as not being current?

**Answer:** Because the solution must be web based and accessible via the internet, Police will have the ability to use the web site to search and retrieve information related to a boat, mooring, etc. Police accounts are restricted to performing data searches only and retrieving restricted information. They will have to use a mobile device supplied by their department.

**Question 76:** There is a lot more functionality in the existing system, is it being replicated in the new web site?

**Answer:** Yes, all existing functionality plus those listed in the Annex J – Requirements Traceability Matrix. There may be some functionality in the present application that have been removed or changed when moving to the new.

**Question 77:** Is adding the new functionality to the existing web site an option?

**Answer:** No, the new registration web site is a separate web site. There needs to be a link from the existing web site to the registration web site.

**Question 78:** In annex F, there is a picture of a boat with labels, are those labels entry fields?

**Answer:** Yes

**Question 79:** Where do the boat pictures come from?

**Answer:** All boat pictures must be supplied by the owner, scanned into the new system and attached to the owner's account.

**Question 80:** For joint ownership, are there 2 users (with separate logins) that both own the same boat?

**Answer:** Yes, Each owner of a joint owner boat will have a separate login. On their login page it should list all boats registered to them and also distinguish any boat that is joint owner from sole owner.

**Question 81:** In Annex F – Present Application Screen Shots.pdf document the screen shots are very low-quality, is there a version with clear screen shots?

**Answer:** Yes they will be posted Friday, November 22, 2019
