

# Quarterly Bulletin of Statistics

## Q2 2018 Highlights

### Imports

- The value of imports decreased 15.8 per cent to \$299.1 million (See Figure 1; Table 1). Six of the nine commodity groups recorded lower imports year-over-year. The largest percentage decline was recorded in the transport equipment category due mostly to fewer imports of boats and yachts in the absence of the 2017 America’s Cup event. In contrast, the value of fuel imports grew 44.1 per cent while the chemicals and miscellaneous commodity groups recorded small nominal increases compared to last year.
- Imports from the United States of America decreased \$30.3 million (See Table 2). Imports from the All Other Countries category fell \$17.0 million and imports from the United Kingdom declined \$9.3 million. Imports from Canada were \$3.9 million lower. In contrast, imports from the Caribbean region increased \$4.2 million year-over-year.

### Employment Income by Industry

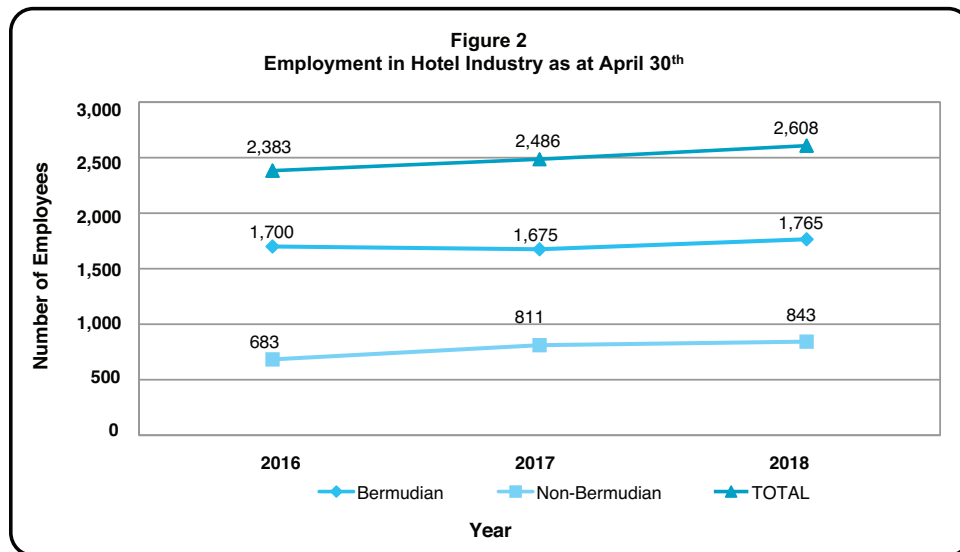

- Employment income declined 1.4 per cent or \$12.4 million (See Table 3). The International Business industry recorded the largest decrease in remuneration of \$12.7 million due to fewer stock options. Declines were also reported in the Business Services category, Transport & Communication and the All Other category due mostly to lower employment income reported for landscaping and businesses offering recreational services.

### Arrivals and Expenditure

- The Island hosted 92,039 air visitors during the second quarter of 2018, an increase of 5.4 per cent year-over-year (See Table 4). Estimated total expenditure by air visitors declined 3.0 per cent to \$133.7 million when compared to the same period of 2017. Visitor spending on shopping, entertainment and transport services was \$5.7 million less (See Table 5). In contrast, spending on accommodation and food increased \$1.5 million.
- A total of 67 cruise ships visited the Island carrying 1 96,437 passengers (See Table 4). Total expenditure for these passengers was estimated at \$31.3 million (See Table 5), reflecting a \$5.4 million rise.

### Hotel Accommodations

- At the end of April 2018, there were 2,608 workers employed within the hotel industry (See Figure 2). The level of employment increased by 122 employees year-over-year, representing 90 more Bermudians and 32 additional non-Bermudians.
- Hotel gross receipts totaled \$129.1 million. This represented an increase of 9.7 per cent or \$11.4 million (See Table 6). This increase reflected a \$6.3 million gain in food and alcohol sales and a \$3.0 million rise in room revenue. All other receipts, which include department sales, increased \$2.2 million.

### Overseas Declarations by Residents

- Overseas declarations by residents increased 7.7 per cent to \$14.7 million (See Table 7). Higher levels of overseas spending were declared for eight of the nine commodity groupings with the largest value increase of \$0.5 million reported for the miscellaneous category. Declarations of clothing & footwear rose \$0.3 million or 3.7 per cent. In percentage terms, the electronic and photographic equipment category recorded the largest increase in declarations of 17.7 per cent.
